

MOUNIKA PULLURU

PSM I Certified Scrum Master | Agile Facilitator | Servant Leadership | Immediate Joiner

mounikapulluru30@gmail.com | +91 6300355110 | Hyderabad | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Technology delivery professional with **8+ years of experience** spanning Quality Assurance leadership and Agile team facilitation. For **3+ years** on a mission-critical migration program, served as the team's day-to-day Agile facilitator alongside QA duties — running daily stand-ups, sprint planning, sprint reviews, retrospectives, and backlog refinement for a 10-member cross-functional team (co-located and remote) using Jira and Confluence. Comfortable coaching teams toward self-management, tracking velocity/burndown, and managing risks and impediments end-to-end. Strong track record partnering with Product Owners and stakeholders to keep delivery aligned to business priorities, paired with deep technical grounding in STLC, SQL-based validation, and Agile SDLC.

CORE COMPETENCIES & SKILLS

Agile & Facilitation	Sprint Planning, Daily Stand-ups, Sprint Reviews, Retrospectives, Backlog Refinement, Velocity & Burndown Tracking, Risk/Impediment Management, Servant Leadership, Team Coaching, Capacity Planning
AI in Scrum	Miro AI, Jira AI, ChatGPT, Microsoft Copilot for backlog refinement, stakeholder communication, sprint reporting, and meeting efficiency
Collaboration Tools	Jira, Confluence, Miro, Microsoft Excel, Planning Poker, Scrumpy Planning Poker, Retro.io
QA & Testing	Manual Testing, STLC, SIT/UAT/Sanity/Regression Testing, Azure DevOps, Defect Lifecycle Management, One Jira, Qtest, TestNG, Maven, Jenkins, Eclipse, Putty, Postman, GitHub
Databases & Web	MySQL, Microsoft SQL Server, Oracle, SQL Navigator, DBeaver, DB2, HTML, XML, CSS

PROFESSIONAL EXPERIENCE

Scrum Master – Agile Coach Freelancing	May 2024 – Jul 2026
Training Aspiring Professionals transitioning to Scrum Master roles	
Scrum Master / Agile Delivery Facilitator Verizon Data Services, Hyderabad	Jul 2019 – Mar 2024
Project: Order Rewire Writes (ORW) Telecommunications Domain	
Strategic re-engineering of order submission and customer data management, migrating mission-critical data from legacy Mainframe to a high-performance Cassandra NoSQL platform (1M+ transactions/sec) with a 60% lift in customer engagement.	
Facilitated Core Scrum Ceremonies: Led daily stand-ups, sprint planning, sprint reviews, retrospectives, and backlog refinement for a 10-member cross-functional co-located and remote team using Jira and Confluence over 3+ years. Agile Metrics & Performance: Tracked and socialized key performance metrics including velocity and burndown charts to inform sprint planning, capacity forecasting, and continuous delivery improvement. Team Coaching & Empowerment: Coached the team toward self-management and accountability; fostered a psychologically safe environment encouraging early impediment identification. Risk & Impediment Management: Identified, tracked, and escalated delivery blockers in partnership with the Environmental Stability team and Dev Leads to drive prompt resolution. Product Backlog Alignment: Collaborated closely with Product Owners and SMEs to refine and prioritize the backlog, ensuring 100% requirement coverage and high business value delivery. Interim Leadership & Technical Testing: Served as Interim Team Lead overseeing daily operations and onboarding. As Technical Test Analyst, authored test plans/reports and executed SIT, UAT, Sanity, and Regression testing across fast-paced sprints. Production Support: Provided extended release support during high-stakes deployments, resolving critical issues with zero system downtime.	

Project 1: Workforce Development Agency (WDA) | Client: Singapore Government

- Supported Agile ceremonies and change-request testing across four interconnected portals (Jobs Bank, Individual Portal, Employer Portal, ICMS).
- Authored test plans, execution reports, bug reports, and test case templates within an Agile framework. Executed SIT, UAT, Smoke, and Regression testing.

Project 2: Denied Party Admin Systems (DPAS) & DPSS | Client: Chevron

- Validated system performance during critical server/data-centre migrations with zero downtime for compliance operations.
- Supported architectural upgrades from Classic ASP to .NET Entity Framework 4.5.2, ensuring functional parity, post-deployment stability, and audit compliance.

Project 3: Gifts Accounts Payable (GAP) | Client: Chevron

- Monitored automated data transfer jobs between Gifts and SAP; handled manual recovery during job failures and coordinated UNIX-to-Linux script upgrades.

CERTIFICATIONS & AWARDS

- **Professional Scrum Master I (PSM I)** — Scrum.org | 100% Score | Sep 2026
- **Scrum for Ops and DevOps Fundamentals Certified** —SCRUMstudy | Oct 2026
- **Practical Scrum-Athon Challenge Certificate** – Scrum Champions (Jul 2026)
- **TOSCA AS1 Certificate** (Dec 2023)
- **ITIL Foundation Certificate** in IT Service Management (Dec 2015)
- **Multiple Spot & Annual Awards** for exceptional delivery and stakeholder commendations.

EDUCATION & PROJECTS

- **B.Tech in Electrical & Electronics Engineering** – Nimra Women's College of Engineering, JNTU Kakinada (2012)
- [scrum-master-case-studies](#) -- A collection of scenario-based Scrum Master case studies demonstrating Agile problem-solving, coaching, stakeholder management, metrics, and continuous improvement.
- [AI-for-Scrum-Masters](#) -- This repository documents my practical learning journey into **Artificial Intelligence for Scrum and Agile practices**.
- [azure-for-scrum-masters](#) – Repository designed to promote **Azure DevOps** Learning
