PROFESSIONAL EXPERIENCE

VERIZON DATA SERVICES — Hyderabad

Scrum Master / Agile Delivery Facilitator / Technical Test Analyst | Jul 2019 – Mar 2024

Project: Order Rewire Writes (ORW) | Telecommunications

- Facilitated Scrum ceremonies for a **10-member cross-functional team** across co-located and remote members for 3+ years, including Sprint Planning, Daily Scrum, Sprint Reviews, Retrospectives and Backlog Refinement.
- Coached team members toward **self-management, ownership and proactive impediment identification**, fostering open communication and psychological safety.
- Tracked and communicated **velocity and burndown metrics** to support sprint planning, forecasting and continuous improvement.

- Identified and managed **risks, impediments and cross-team dependencies**, partnering with Development Leads and Environmental Stability teams to drive resolution.
- Collaborated with Product Owners and SMEs on **backlog refinement, prioritization and requirement clarity**, aligning Sprint commitments with business priorities.
- Facilitated retrospective discussions and supported the team in converting improvement opportunities into actionable follow-up items.
- Acted as **Interim Team Lead**, supporting daily delivery activities and mentoring/onboarding new team members.
- Supported quality and release readiness for a mission-critical **Mainframe-to-Cassandra migration**, contributing through test planning, defect management, SIT/UAT/regression testing and production support.

TECH MAHINDRA — Hyderabad

Software Test Engineer / Agile Practitioner | Jan 2014 – Feb 2018

- Supported Agile ceremonies, requirement discussions and change-request activities across multiple enterprise applications.
- Coordinated with Development, Migration and business teams on testing, release planning and production readiness.
- Led test planning and execution across SIT, UAT, Smoke and Regression cycles, ensuring requirement coverage and release quality.
- Supported application and infrastructure migrations with focus on system stability, compliance and business continuity.
